The many friends of Judge Wendell P. Stafford, who has been suffering from a severe attack of typhoid fever in Washington, will be glad to know that he is again on the street.

While chopping wood in Parson's woods in Castleton Tuesday afternoon, Edward Wood looked up and saw a lynx preparing to spring upon him from a tree. Mr. Wood had a gun with him and promptly shot the animal. It is an excellent specimen, measuring two feet eight inches in length, and weighing twelve pounds.

Sickening, Shivering Fits
of Ague and Malaria can be relieved and cured with Electric Bitters. This is a pure, tonic medicine, of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to quinine, having none of this drug's bad after-effects. E. S. Munday of Henrietta, Tex., writes: "My brother was very low with malarial fever and jaundice till he took Electric Bitters, which saved his life. At the Red Cross and Parlor Drug Stores. Price, 50 cents. Guaranteed."

AN APPEAL TO DRINKING MEN

There is not a drunkard upon earth whom Orlin will fail to cure. It is a scientific remedy for the drink habit, discovered by a well-known Washington chemist, and completely and absolutely destroys the craving for drink. No detention from work or business; no publicity of sanitarium treatment.

Orlin No. 1 is in powder form, and can be given secretly, without the patient's knowledge, in tea, coffee or food. Orlin No. 2 is in pill form, for those who take the remedy of their own free will. There is no nausea or other ill-effects from the use of Orlin. On the other hand, it quiets the nerves, regulates digestion and brings restful sleep, good appetite and perfect vigor.

Write to the Orlin Company, Inc., Washington, D. C., for free booklet, mailed in plain envelope. We heartily recommend Orlin to all who wish freedom from the slavery of drink. Ask us about Orlin. Red Cross Pharmacy, Rickert & Wells, proprietors, Barre, Vt.

AN EDUCATED HORSE.

Milwaukee Animal That Has a Talent For Figures.

Hans, the famous German horse, whose ability to do sums in arithmetic and other difficult feats has astonished German scientists, has a rival in Milwaukee, says a dispatch from that city. The Milwaukee animal does simple sums, but his education has not progressed so far as that of Hans. The same charges that are made against the German horse that the animal does not do the sums of his own accord, but gives results by marvelous powers of observation, are repeated in this case. It is also suggested his owner exerts hypnotic influence over the animal.

The horse is known as Colonel Dixon and was a common delivery horse in the service of a caterer when his education was begun. Isaac Goodman is the discoverer of the animal's ability and has only been giving the lessons for two months. He professes to believe that when he gives a sum to do the result is transmitted to the brain of the horse by telepathy.

When Colonel Dixon is asked to subtract 3 from 5 he taps twice. When asked how many letters there are in the name of a visitor he taps the number provided Goodman knows the name.

Aerial Ferry Bridge.
An aerial ferry bridge is under construction at Duluth, Minn. Its two spans were successfully joined a short time since, says the Chicago Journal. It is said to be the only one of its kind in the western hemisphere and in the opinion of eminent civil and mechanical engineers is a remarkable triumph in engineering skill. The bridge, stretching 105 feet above the surface of the lake, is of sufficient height to permit the tallest masted steamers to pass under it. The span is 400 feet. The cars, capable of carrying freight of all descriptions and 150 passengers at a time, will be operated by electricity, moving from side to side by means of suspended cables.
